Developer and designer JEE for several years, I also have development experience on the entire Java ecosystem (Android, J2ME on PDA and Javacard on NFC chipset). I am currently a software architect and remain passionate about my job and new technologies in general. Particularly interested in new uses and opportunities that can lead to the development of 4G on the territory, I wish to continue my career on innovative mobile development projects as a software architect and / or developer / designer.

SKILLS

Languages	**Java**, Angular, Groovy, Python.
Frameworks	Spring, Spring Boot.
Databases	SQL, MongoDB, **Neo4j**.
Developement Tools	**IntelliJ Idea**, git.
Cloud Tools	PCF, Azure, Localstack.
DevOps Tools	Jenkins, Docker, Kubernetes.
Build Tools	Gradle, Maven.

PROFESSIONAL EXPERIENCES

Current
May 2017

Ford Motor Company | Full Stack Developer, DEARBORN, MI
Developed software delivery mechanism for OTA (over the air) updates for vehicles.
Created 4 out 6 well tested micro-serivces, using spring initializr.
Applied TDD approach from the beginning and achieved a code coverage of **95%–91%** for all micro-services.
Mentored 3 developers .

`Spring Boot` `Gradle` `TDD` `(CI) Git` `(CD) Jenkins` `Nexus` `PCF` `MS-SQL (Azure)`
